

What Will People Think of Our Photos?

Supplies:

Photos that the students bring from home or magazine photos

Procedure:

1. Have the students bring photos from home or go through current magazines like *Time*, *Life*, *Sports Illustrated*, teen magazines, etc. Looking at the photos what do you think people from the future will learn about our culture?

Think about fashion, objects, values, lifestyle, etc. Do you think the photos actually show the way we live everyday or will they give future generations a skewed picture of the way we live? Why or why not?
